Important Notes:

Even with the highest quality LCD the portrayed image can remain "washed-out" in bright sunlight.
Also one has to consider the possible "smash and grab" factor when placing an LCD panel in a window this does not arise with a "see through screen" as it has no real value as a "standalone unit".

Additional notes:

All prices are ***EXCLUSIVE o f VAT*** *.*
Pricing based on cost of goods as at 1st September 2008, prices may be subject to change.
Leasing costs correct as at 1st September 2008, rates may vary and prices may change.
